Insurance Information

Due to the unique nature of care that Dr. Maidenberg offers, she is an out-of-network provider for all insurance companies. Payment for care is due at the time of the visit and we provide you with a "Super Bill" that contains the information needed to seek reimbursement from your insurance company.

When you speak to your insurance:

- 1) First you will want to find out if they provide reimbursement for an out of network doctor. If they do, ask what percent they will cover.
- 2) Next, ask if you will need to fulfill an out-of-network deductible first.
- 3) Last, you will want to ask about coverage for a couple different types of appointments, which are described as procedure (CPT) codes. Ask them what the "allowable expense" is for CPT codes:

99494 (this is the 1 hour prenatal consultation for which we charge \$285; this appointment is optional)

99391 (this is a regular child wellness checkup for which we charge \$350)

99213 (this is a child sick visit for which we charge \$175).

Keep in mind, however, that the first visit for your child will be an additional \$60 to establish care.

Please feel free to call or email us with any questions!
